IN RE: PETITION FOR SPECIAL EXCEPTION * BEFORE THE
N/E/S Franklin Square Drive * DEPUTY ZONING COMMISSIONER
14th Election District * OF BALTIMORE COUNTY
6th Councilmanic District *
Franklin Square Hospital - * Case No. 88-331-X
Petitioner *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

The Petitioner herein requests a special exception to permit building widths of 670 feet and 700 feet, for two proposed additions, in lieu of the maximum permitted width of 300 feet, as more particularly described on Petitioner's Exhibit 1.

The Petitioner, by Richard A. Ayd, Senior Vice President, appeared, testified, and was represented by Robert J. Ryan, Esquire. George E. Gavrelis, an expert witness with Daft-McCune-Walker, Inc., appeared and testified on behalf of the Petition. There were no Protestants.

Testimony indicated that the subject property, zoned D.R. 5.5, is the site of the Franklin Square Hospital. The original section of the hospital was constructed in approximately 1969, with subsequent additions made in 1977 and 1978. The Petitioner proposes to construct two more additions to the building in two separate locations. On the northeast side, an approximately 28,000 sq.ft., two-story addition is proposed. This wing will provide additional warehouse storage capacity, relocate and improve the morgue to make it more accessible for deliveries, expand space for the Anesthesiology Department, and improve the Operations and Support Unit. Mr. Ayd testified that with the tremendous increase in the number of patients being admitted, generally around 6:00 AM on the same day as surgeries occur, additional space is needed for them, as often beds are not available until after the 11:00 AM check-out. The second addition will be a 12,000 sq.ft. single story addition which will provide space for

Description

23.70 Acre Parcel, North Side Franklin Square Drive,
East of Rossville Boulevard, Fourteenth Election District,
Baltimore County, Maryland.

Commencing at a point formed by the intersection of the centerline of Rossville Boulevard with the centerline of Franklin Square Drive, thence leaving said point and running and binding on the centerline of Franklin Square Drive and referring all courses of this description to the Grid Meridian as established in the Baltimore County Metropolitan District the five following courses and distances to the point of beginning, viz: (1) South 80 degrees 05 minutes 00 seconds East 192 feet, more or less, thence (2) Easterly 249.08 feet along the arc of a curve to the left having a radius of 670.00 feet and a chord bearing North 89 degrees 16 minutes 00 seconds East 247.65 feet, thence (3) North 78 degrees 37 minutes 00 seconds East 220.03 feet, thence (4) Southeasterly 282.07 feet along the arc of a curve to the right having a radius of 825.00 feet and a chord bearing South 84 degrees 11 minutes 30 seconds East 280.70 feet, and thence (5) North 07 degrees 47 minutes 25 seconds West 36.42 feet to the point of beginning, said point also being the beginning of the first line of that first parcel of land which by deed dated February 16, 1977 and recorded among the Land Records of Baltimore County, Maryland in Liber E.H.K., Jr. 5726, Folio 507 was granted and conveyed by The Franklin Square Hospital, Inc. to Maryland Health and Higher Educational Facilities Authority, thence leaving said

the freestanding, ambulatory surgery unit. Mr. Ayd testified that there has been a tremendous increase in out-patient surgery and additional space which must be connected to the hospital in some instances standard operating rooms are required for the services provided.

Mr. Gavrelis testified that he had reviewed the proposed improvements for the subject property and has determined that the relief requested meets all the conditions precedent to Section 502.1 of the Baltimore County Zoning Regulations (B.C.Z.R.). Further, it was in his professional opinion that the widths being requested would be in accordance with the conditions precedent in Section 502 and in accordance with the standards adopted in Section 504.

Based on the testimony and evidence presented, it is obvious that the greater widths have been and are in compliance with the conditions and standards set forth in Section 502 of the B.C.Z.R. The existing hospital building has not in any way created a problem and has always been compatible with the site and surrounding community.

The Petitioner had the burden of adducing testimony and evidence which would show that the proposed use met the prescribed standards and requirements set forth in Section 502.1. In fact, the Petitioner has shown that the proposed use would be conducted without real detriment to the neighborhood and would not actually adversely affect the public interest. The facts and circumstances of the use proposed by the Petitioner do not show that the proposed use at the particular location described by Petitioner's Exhibit 1 would have any adverse impact above and beyond that inherently associated with such a special exception use irrespective of its location within the scene. *Schultz v. Pratts*, 432 A.2d 1319 (1981).

After due consideration of the testimony and evidence presented, it appears that the special exception should be granted. In the opinion of the Depu-

-2-

ty Zoning Commissioner, the proposed facility satisfies *Schultz v. Pratts*, 432 A.2d, 1319 (1981), and the width of these buildings in excess of what is ordinarily permitted, would in no way be extraordinary or even unusual for a similar type facility. It is the opinion of the Deputy Zoning Commissioner that the additions to the main hospital building are within the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on this petition held, and for the reasons given above, the relief requested in the special exception should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 1st day of March, 1988 that building widths of 670 feet and 700 feet, for two proposed additions, in lieu of the maximum permitted width of 300 feet, in accordance with Petitioner's Exhibit 1, be approved, and as such, the Petition for Special Exception is hereby GRANTED, subject, however, to the following restriction:

1) The Petitioner may apply for his building permit and be granted same upon receipt of this Order; however, Petitioner is hereby made aware that proceeding at this time is at his own risk until such time as the applicable appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition.
